NOTES

Sawtooth Relay Course Records are for a 61.91 mile course.

Records do not include the Stanley to Boise long courses held from 1990 through 2001.

No relay was held in 1994 and 1995.

It is possible for teams to hold an overall course record and a course record in their respective team category.

Each year overall winners receive only the overall award. They do not receive an award in their team category.

Team categories were expanded in 2005.

Teams from previous years were placed in the current year's categories.
